TECHNICAL SKILLS

| JavaScript | React | RESTful APIs | Redux.js | PHP | Laravel | Git | Webhooks |

| Markup Languages (HTML,MJML) | CSS | Responsive Web-Design | mySQL | MS-SQL |

| ReactNative | TypeScript | AngularJS | Vue | Low Code Applications | NodeRed |

WORK EXPERIENCE

01/2021 - 09/2023
2 years 9 months

Tools Used:
VS Code, PhpStorm, WinSCP, XAMPP, NodeRed, Confluence, Mautic, Jira, Git, MySQL.

Software Engineer
twentyZen GmbH ↗

- Worked on Immobilien client project and used React, and JavaScript along with PHP (Laravel). In Laravel migrated the old database into a new React application and created views using React with Material UI.

- Created an online shop for a product where users can buy and admin can sell and update products. Used React for creating views and Laravel for database migration and creating new database. Also integrated third-party payment method for selling product.

- Worked on 'Low Code' Applications using JavaScript and integrated Rest APIs and webhooks using the JavaScript framework 'NodeRed'.

- Worked on an open-source marketing automation tool and its integration with other applications.

- Worked on MJML markup Language for creating responsive email templates and testing them on 100 + email clients including outlook, Gmail and their mobile versions.

- Extensively worked on APIs and Webhooks for different system integrations. Got experience of different authentication types and how they work in real time.

05/2020 - 08/2020
4 months

Work Student
inovisio communications GmbH ⬈

Tools Used:
VS Code, Selenium, MySQL, Confluence, wiki docs.

- Created test cases for an application using Selenium.

- Worked on an application using JavaScript and PHP (Laminas Framework) with MySQL.

10/2019 - 04/2020
7 months

IT Internee
Parker Hannifin Manufacturing Germany GmbH ⬈

Tools Used:
VS Code, XAMPP, FileZilla, PowerBI, MS Report Builder, SSIS, MySQL.

- Used PHP blade templates for embedding and creating views for dashboards and PowerBI graphs.

- PowerBI Reporting Server and power BI Desktop to create graphs and analytical dashboard.

- Used VBA for creating Macros in Microsoft SQL and used SSIS for getting reporting data.

09/2016 - 10/2017
1 year 1 month

WEB/ERP DEVELOPER
Androsoft Solutions, Islamabad Pakistan ⬈

Tools Used:
Visual Studio 2012, MySQL, XAMPP, VS Code.

- Created an ERP system for an educational institute using C# and asp.Net.

- Also created WordPress based websites for other clients.

- Created JavaScript and PHP based portal for a call center client to collect and forward queries to managers.

ACADEMIC / PERSONAL PROJECTS

MeetMe React Application

Created a Web based application in react to post new meetups and add the posted meetups in the favorites and used fireBase for database and API calls.

LabourOnline (01/2023 - Present)

Own Side Project for labors to find work online on different locations. (Based on React Native with Expo GO environment). It is an idea on which I continuously working, basic functionality will be to able people to find labor work online using maps to find where the labor is available.

Online Restaurants with recipes (Website)

Project to create a website where all scraped and cleaned data show through REST API in the front end. (Based on Python and asp.Net). Basic process was to collect data and create APIs and show that data in frontend.

Visualization and Warehousing of Scientific Research Data (Master Thesis)

Collect and scrap data using 'scrapy' library of Python and analyze and perform ETL on data using 'talend' and create graphs using 'PowerBI'.

EDUCATION

11/2017 - 08/2020

MASTERS IN WEB ENGINEERING
Technische Universität Chemnitz, Chemnitz, Germany

Learn about modern web development tools and current trends in web engineering. Covered almost all areas of web development and performed final project based on scrum methodologies.

06/2012 - 09/2016

BACHELORS IN SOFTWARE ENGINEERING
National University of Modern Languages, Islamabad, Pakistan

Got comprehensive knowledge of Software Engineering, Data Structure & Algorithm, Database Management, Systems Software Engineering Practices.

ACHIEVEMENTS

Head of IT Skills in the University | Served as a Head of IT skills in the University Society of Engineers.

Third position in Open House 2016 | Got third position in Open House 2016 held in the National University of Modern Languages
